DVM

## NEW STAFF AT TVEH:

# DR. AINSLEY BOUDREAU CRITICAL CARE

In response to the growing demand for specialty care for critical patients, Dr. Ainsley Boudreau will join Dr. Ethier and the critical care team in November 2011. With the addition of Dr. Boudreau, a critical care specialist will be on site accepting referrals 7 days a week.

Drs. Ethier and Boudreau will continue to provide out-of-hours back up for TVEH's Emergency Service, allowing transfers and referrals when patients need them most.

Dr. Ainsley Boudreau graduated from the Ontario Veterinary College in 2005. She completed a small animal rotating internship at the Atlantic Veterinary College in PEI, in 2006. She then moved to Calgary, Alberta to work at the CARE centre as an emergency veterinarian in 2007. The following year she completed an internship in emergency critical care at the Iowa State University. After this she returned to Guelph, Ontario to complete a small animal emergency and critical care residency and DVSc at the Ontario Veterinary College from 2008 to July 2011. Some of her outside interests include: cycling, soccer, basketball, hiking and running. She currently shares residence with her three-legged dog "Molly".
